

Tessa Marlowe

Senior software engineer, product-focused, seven years shipping web applications

Portland, Oregon (503) 555-0142 tessa.marlowe@example.com tessamarlowe.example

github.com/tessamarlowe

SUMMARY

Engineer who likes owning a product surface end to end: talking to the people who use it, shaping the work, and shipping it with tests. Most at home in TypeScript on both sides of the wire, comfortable in Python and Go, and happy to be the person who makes the build faster.

EXPERIENCE

Senior Software Engineer · Fernbrook Labs, Portland, OR Mar 2021 – present

- Lead engineer for the customer-facing web app (TypeScript, React, Node) used by 40,000 small businesses.
- Cut p95 page load from 3.1 s to 1.8 s by moving rendering to the edge and trimming the client bundle by half.
- Introduced end-to-end testing across the product; release incidents fell from monthly to fewer than one a quarter.
- Mentor three engineers and run the team's design review.

Software Engineer · Tidewater Robotics, Seattle, WA Jul 2018 – Feb 2021

- Built the fleet telemetry dashboard (React, D3) operators use to watch 300 robots across nine warehouses.
- Wrote the on-device data pipeline in Go that batches sensor readings and survives days offline.
- Owned the release process for the field software, including staged rollouts and rollback tooling.

Software Engineering Intern · Tidewater Robotics, Seattle, WA Jun 2017 – Sep 2017

- Prototyped the first version of the telemetry dashboard and presented it to the operations team.

EDUCATION

B.S. Computer Science · University of Washington, Seattle Sep 2014 – Jun 2018

GPA 3.8. Teaching assistant for the introductory systems course.

SKILLS

Languages	TypeScript, JavaScript, Python, Go, SQL
Web	React, Node, Next.js, Vite, Playwright, accessibility
Infrastructure	PostgreSQL, Redis, AWS, Terraform, GitHub Actions
Ways of working	Design reviews, incident retrospectives, mentoring, writing things down
